

KOCH FERTILIZER CANADA, ULC

GROW YOUR FUTURE WITH KOCH FERTILIZER CANADA, ULC!

- **Great Compensation Package!**
- **Supportive Work Environment!**
- **Greater Opportunities for Growth!**

Based in Brandon, Manitoba, Koch Fertilizer Canada, ULC's operations have been producing agricultural fertilizer products since 1967. We synthesize and blend nitrogen, phosphate, and sulfur products with ammonia, which we market primarily in the prairie provinces of Canada and the northern United States. Operating 24 hours a day, 365 days per year, we employ approximately 300 dedicated team members. At KFCU, our fundamental commitment to safety, health, and environmental stewardship drives all of our processes.

A subsidiary of Koch Industries Inc., one of the world's largest private companies, Koch Fertilizer's global operations leverage Market-Based Management® to create long-term value for customers and society. By focusing on long-term value creation, we promote a challenging and rewarding environment for our professional and highly respected employees.

ENVIRONMENTAL SUMMER STUDENT (4 month term)

Koch Fertilizer Canada is looking for an energetic, highly organized individual to join the Compliance team. This individual will provide prompt, professional and high quality support to allow the organization to create value. This role offers a fast-paced working environment, and opportunities for career development within our growing organization!

You will be:

- Collecting water samples
- Sampling and data collection of monitored wells
- Repairing and maintaining wells and well standpipes
- Collecting soil samples to determine land suitability and soil nutrient profile
- Yard maintenance work as required (grass cutting, site cleanup)
- Providing assistance with Irrigation program as required
- Providing support to the Environmental Coordinator as required

The successful candidate must have a passion for the industry and will report to the Environmental Coordinator.

The qualifications you have include:

- Currently enrolled in an environmental or science-based post-secondary program
- Able to work independently
- Valid class five (5) driver's license
- Strong computer skills and familiarity with standard software packages such as Microsoft Office and GPS
- Comfortable interpreting maps, aerial photographs, and compass
- Demonstrated technical, communication, problem solving, economic, critical thinking, initiative and team skills

The work environment you'll be entering requires and includes:

- Ability to work outdoors in all types of weather
- Ability to lift and carry up to thirty (30) pounds repetitively

- Ability to climb stairs
- Ability to climb ladders and work at heights
- Ability to wear a gas mask-type respirator and PPE
- Tolerance to occasional exposure to fumes or airborne particles and toxic or caustic chemicals with appropriate PPE
- Ability to work in an industrial manufacturing environment
- Availability for flexible hours based on job requirements
- Unassisted physical mobility in/around plant and equipment
- Manual dexterity required to use desktop computer and peripherals
- Ability to sit, stand, kneel as necessary
- Ability to travel to and enter site to access equipment
- 5% travel, including air

Hours of Work: 8:00am to 5:00pm

Length of Term: May 2nd to August 26th, 2016

Koch Fertilizer Canada, ULC Offers an opportunity to start your career with a growing, prairie-based facility as well as nationally-competitive wages in an environment that is committed to success!

Top performing co-op program students may be recruited for permanent employment upon completion of their degree program!

If you are ready to step into an exciting position with Koch Fertilizer Canada, please apply online by January 25th, 2016 at:
