Dr. Ebenezer Dassah

Co-Principal Investigator: Kwame Nkrumah
University of Science & Technology

GETTING TO KNOW DR. EBENEZER DASSAH

Dr. Ebenezer Dassah is a Lecturer within the School of Public Health at the Kwame Nkrumah University of Science and Technology (KNUST), Ghana. He is a rural health researcher and has been involved in conducting policy and practice relevant health research to address health inequities among rural populations globally. The goal of his academic research is to provide policy and practice-relevant interventions that can improve marginalized populations in rural areas globally.

DR. DASSAH'S ROLE IN THE BCDI: 2030 PROJECT

As the Co-Principal Investigator for the project, Dr. Dassah works to assess the BCDI: 2030 Scholarship applications from the KNUST students. In this role, he aims to instill equity and inclusion for marginalized students. He has completed appropriate training to ensure the applications are assessed thoroughly and fairly. In this role, Dr. Dassah has designed the process in which all applications are reviewed to ensure the success of the selected Scholarship Recipients. Dr. Dassah is the main point of contact for all collaborative efforts on the project, and provides crucial institutional insights. Alongside these duties, Dr. Dassah will be instrumental in the development and implementation of the transition plans when the students have completed their studies and prepare to return to Ghana. Making sure a network for employability following completion of the program is vital for the success of the BCDI: 2030 Project.
